been given to, and consents and rights have been obtained from, the relevant data subjects and any other party as may be required by Applicable Data Protection Laws and any other laws for such processing; and (c) Personal Data does not and will not contain any protected health information subject to the Health Insurance Portability and Accountability Act (HIPAA), any biometric information, or any payment card information subject to the Payment Card Industry Data Security Standard.

7. Analytics

Customer acknowledges and agrees that Virsaе may create and derive from processing under the Agreement anonymized and/or aggregated data that does not identify Customer or any natural person, and use, publicize or share with third parties such data to improve Virsaе's products and services and for its other lawful business purposes.

To the extent of any conflict or inconsistency between this Addendum and the other terms of the Agreement, this Addendum will govern. This Addendum replaces all other privacy, security, or other data protection terms of the Agreement. Any liabilities arising in respect of this Addendum are subject to the limitations of liability under the Agreement.

1.2 Roles and Regulatory Compliance; Authorization. The parties acknowledge and agree that (a) Virsaе is a processor of that Personal Data under European Data Protection Laws; (b) Customer is a controller of that Personal Data under European Data Protection Laws; and (c) each party will comply with the obligations applicable to it in such role under the European Data Protection Laws with respect to the processing of that Personal Data.

1.3 Virsaе's Compliance with Instructions. Virsaе will only process Personal Data in accordance with Customer's instructions described in Section 3 (Customer Instructions) of the Addendum unless European Data Protection Laws requires otherwise, in which case Virsaе will notify Customer (unless that law prohibits Virsaе from doing so on important grounds of public interest).

1.4 Data Deletion. Upon termination of Customer's access to the Virsaе Solution, Customer instructs Virsaе to delete all Personal Data from Virsaе's systems as soon as reasonably practicable, unless European Data Protection Laws requires otherwise.

2. Data Security

2.1 Virsaе Security Measures, Controls and Assistance

2.1.1 Virsaе Security Assistance. Virsaе will (taking into account the nature of the processing of Personal Data and the information available to Virsaе) provide Customer with reasonable assistance necessary for Customer to comply with its obligations in respect of Personal Data under European Data Protection Laws, including Articles 32 to 34 (inclusive) of the EU GDPR or UK GDPR, by (a) implementing and maintaining the Security Measures; (b) complying with the terms of Section 4.2 (Information Security Incidents) of the Addendum; and (c) complying with this Annex 1.

2.1.2 Security Compliance by Virsaе Staff. Virsaе will grant access to Personal Data only to personnel who need such access for the scope of their job duties and are subject to appropriate confidentiality arrangements.

2.2 Reviews and Audits of Compliance

2.2.1 Customer may audit Virsaе's compliance with its obligations under this Addendum up to once per year and on such other occasions as may be required by European Data Protection Laws, including where mandated by Customer's supervisory authority. Virsaе will contribute to such audits by providing Customer or Customer's supervisory authority with the information and assistance reasonably necessary to conduct the audit.

2.2.2 If a third party is to conduct the audit, Virsaе may object to the auditor if the auditor is, in Virsaе's reasonable opinion, not independent, a competitor of Virsaе, or otherwise manifestly unsuitable. Such objection by Virsaе will require Customer to appoint another auditor or conduct the audit itself.

2.2.3 To request an audit, Customer must submit a detailed proposed audit plan to Virsaе at least two weeks in advance of the proposed audit date and any third-party auditor must sign a customary non-disclosure agreement mutually acceptable to the parties (such acceptance not to be unreasonably withheld) providing for the confidential treatment of all information exchanged in

connection with the audit and any reports regarding the results or findings thereof. The proposed audit plan must describe the proposed scope, duration, and start date of the audit. Virsaе will review the proposed audit plan and provide Customer with any concerns or questions (for example, any request for information that could compromise Virsaе security, privacy, employment or other relevant policies). Virsaе will work cooperatively with Customer to agree on a final audit plan. Nothing in this Section 2.2 shall require Virsaе to breach any duties of confidentiality.

- 2.2.4 If the controls or measures to be assessed in the requested audit are addressed in an SOC 2 Type 2, ISO, NIST or similar audit report performed by a qualified third-party auditor within twelve (12) months of Customer's audit request and Virsaе has confirmed there are no known material changes in the controls audited, Customer agrees to accept such report lieu of requesting an audit of such controls or measures.
- 2.2.5 The audit must be conducted during regular business hours, subject to the agreed final audit plan and Virsaе's safety, security, or other relevant policies, and may not unreasonably interfere with Virsaе business activities.
- 2.2.6 Customer will promptly notify Virsaе of any non-compliance discovered during the course of an audit and provide Virsaе any audit reports generated in connection with any audit under this Section 2.2, unless prohibited by European Data Protection Laws or otherwise instructed by a supervisory authority. Customer may use the audit reports only for the purposes of meeting Customer's regulatory audit requirements and/or confirming compliance with the requirements of this Addendum.
- 2.2.7 Any audits are at Customer's expense. Customer shall reimburse Virsaе for any time expended by Virsaе or its Third Party Sub-processors in connection with any audits or inspections under this Section 2.2 at Virsaе's then-current professional services rates, which shall be made available to Customer upon request. Customer will be responsible for any fees charged by any auditor appointed by Customer to execute any such audit. Nothing in this Addendum shall be construed to require Virsaе to furnish more information about its Third Party Sub-processors in a connection with such audits than such Third Party Sub-processors make generally available to their customers.

3. Impact Assessments and Consultations

Virsaе will (taking into account the nature of the processing and the information available to Virsaе) reasonably assist Customer in complying with its obligations under Articles 35 and 36 of the EU GDPR or UK GDPR, by (a) making available documentation describing relevant aspects of Virsaе's information security program and the security measures applied in connection therewith; and (b) providing the other information contained in the Agreement including this Addendum.
